STATEMENT BY M. ANGELA PARSONS UNDER 37 CFR §1.8(b)(3)

I, M. Angela Parsons, personally declare that:

1. A Response to Restriction Requirement and a Petition to Revive (copies enclosed) were filed with the U.S. Patent and Trademark Office by Ann Viksnins, the attorney of record, via facsimile on November 3, 2004. The Response to Restriction and the Petition to Revive Application were transmitted to fax number (571) 273-0025 and, as demonstrated by the attached report from the facsimile sending unit, confirmation of successful transmission of the facsimile was received.
2. Ann Viksnins is no longer with Fish & Richardson P.C. Ann Viksnins left Fish & Richardson, P.C. in April, 2005. I took over prosecution of any applications that Ann Viksnins did not take with her when she left Fish & Richardson P.C.
3. During a routine audit by the Docketing Department at Fish & Richardson, P.C., the above-referenced application was flagged due to a lack of activity. The Docketing Department contacted me on June 30, 2006 so that I could determine the status of the application.

4. I reviewed the file history of the above-referenced application in PAIR, which indicated that the application was abandoned. In addition, the file history in PAIR did not reflect the November 3, 2004 filing (i.e., the Response to Restriction Requirement and the Petition to Revive Application).

5. Upon placing a telephone call to the Examiner, the Examiner confirmed that there was no record of the Response to Restriction Requirement and the Petition to Revive Application being received by the U.S. Patent and Trademark Office.

6. I then determined that the \$1330 fee for the Petition to Revive Application was never charged to the Fish & Richardson Deposit Account as was instructed in the November 3, 2004 filing.

7. Upon making these determinations, I promptly prepared the instant Declaration and the attached Petition for submission to the U.S. Patent & Trademark Office requesting that the November 3, 2004 filing be recognized.

Respectfully submitted,
